

Supporting Workplace Needs

6hrs/day, 1 day/week, 3 weeks - Workplace Team growth and development

The workplace industry has changed dramatically in the 2020's. This program helps workplace teams understand the shift in thinking, priorities, and deliverables needed to influence the Future-of-Work, develop their careers, and produce results for ever changing needs.

Week 01 - Individual Focus

Utilizing an agreed-upon assessment, understand each other's personalities, strengths, challenges, and desires. Analyze the team's level of trust and commitment, presence of conflict, accountability, and results.

Session result: Utilize individual strengths and build trust as a team

Week 02- Team Focus

Deepdive into norms in Facilities, Real Estate, Workplace Strategy, Programs and more. Analyze changes in your business, industry, and/or world. Develop what workplace needs to know, determine, and/or support in the change.

Session result: A 3-year plan to achieve the workplace team vision.

Week 03- Organization Focus

Education into principles and models that support change management. Practice practical change application, influence, and reducing resistance with a real-life situation your Workplace Team needs to address.

Session result: A 1-year change management action plan + process to develop the action plan for Years 2-3 that will serve the workplace vision.
